AVerTV CardBus

WATCH-RECORD-ENJOY Watch TV & Capture Video

Now! AVerMedia brings you the AVerTV CardBus, our latest TV/Video entertainment product. AVerTV CardBus featured as high quality TV-Tuner and Video capture card which allows you to instantly watch TV or Video and capture images or video clippings on your notebook.

They also bring high quality digital recording in MPEG II format and come with Time-Shift function.

Watch TV or Video on your NB

Simply insert AVerTV CardBus into your laptop or notebook cardbus slot, hook it up with antenna and you are now ready to watch your favorite TV shows! You can also watch from external video device like VCR or camcorder through composite or s-video connection.

Teletext Software Feature (for PAL System)

You can now get the most updated information such as TV Schedules, News, Stock Market Prices, Concert & Theater program and so on from TV broadcasting system services.

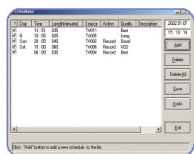

AVerMedia-Developed TV Software- AVerTV

Power packed with AVerMedia-Developed TV software for Windows XP/ME/2000 that brings high quality video and digital recording in MPEGII format. It even comes with Timeshift feature that allows you to play real time recording of live TV and to access the pause, rewind, and fast forward features at the same time.

Capture Images & Video

Capture still images and motion video to your PC's hard drive.

TV Scheduler

Use the Scheduler for presetting the day and time to turn on the TV and watch or record your favorite TV programs.

Parental Channel Lock-Out

Lock out certain TV channels to prevent your kids from viewing adult channels.
