Take Control of Your TV Viewing

Introducing the best value for your multimedia needs! By incorporating the latest Philips® TDA8275 chipset the new **AVerTV GO 007 Plus / FM Plus** supports all terrestrial analogue standards (NTSC/PAL/SECAM) and provides shorter setup time. It has the same great features that made it very popular by bundling a TV tuner, video capture and video conferencing functions all in one card. Advanced features like 16-channel preview, TV program scheduler, channel groups and a lockout feature to prevent your kids from viewing some channels giving you unparalleled control.

The pictures are only for reference.
