The Summit

Pinnacle Studio Family version 10
The star of your next home movie

From Pinnacle, the number one consumer choice in home video editing, comes the Studio v.10 family, based on the friendliest, most complete and powerful video editing software on the market today. To better satisfy your unique needs, Studio v.10 is available in three versions.

Pinnacle Studio v.10
Quickly enhance and share your memories with video
The simplicity and power you need to quickly preserve your video memories, easily turn them into great looking movies, and effortlessly share them on DVD or the Web.

Pinnacle Studio Plus v.10
Powerful home video editing made simple
The added level of simple creative control and broadcast-grade power you need to give your home videos a seriously professional touch.
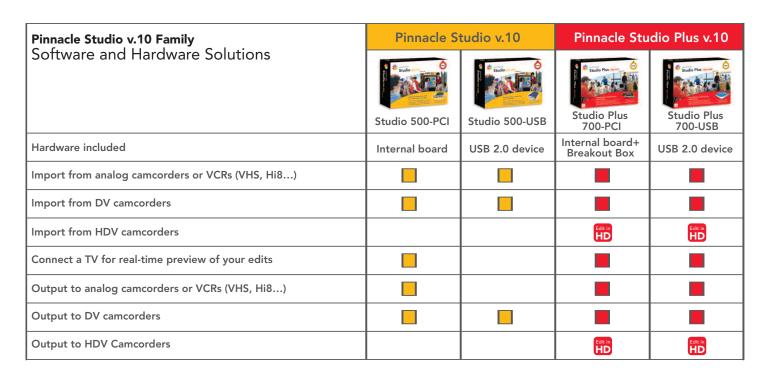

Pinnacle Studio MediaSuite v.10
Take control to deliver blockbuster home movies
The best way to exercise total creative control over all the ingredients of your home movies: video footage, digital photos and audio files.

Hardware Solutions
If your desktop or notebook PC doesn't have video capture capabilities, you will need a Pinnacle Software and Hardware solution. We offer a broad choice of internal cards and external USB devices that have been developed by our experts to work together with our software and deliver the best possible performance.

Explore the possibilities
Pinnacle Studio v.10 includes everything you need to get started right away, and keeps you moving quickly every step of the way.

• **Make spectacular videos in seconds** – Try the SmartMovie option. Capture or choose your video clips and a music track, pick one of 18 preset styles, then sit back and let Studio automatically create an amazing movie in an instant with edits, titles and effects.

• **Transfer directly to DVD** – Maybe some of your footage doesn't need editing. Or you don't have time today. When you launch Studio, simply choose the direct-to-disc option. Your video will be transferred straight from a tape to a DVD, without taking the extra step of first copying your files over to your PC's hard drive and saving you both time and space.

• **Turn stills into movies** – Animate your digital photos with close-ups or pan-and-zoom in any direction to create truly captivating video sequences. Studio also includes tools for removing red-eye, rotating and cropping your images.

• **Give old videos new life** – Studio's toolkit includes video cleaning to restore old, damaged video. You can enhance colors, clean up "snow effect," improve poorly lit footage, stabilize shaky images, reduce extraneous noise and more.

• **Choose and view instantly** – Select from hundreds of real-time effects and transitions and preview them full-screen on your computer monitor. You can also easily add to your effects collection at any time—Pinnacle offers hundreds more at very affordable prices.

• **Includes Pinnacle MediaManager** – Quickly and simply classify and organize all your video, photo, audio and music files for drag-and-drop editing within Studio.

So many features, so little hassle
Pinnacle Studio Plus v.10 is built on the same technology used by professional broadcasters. It includes everything you need for total control of your creative options, and high performance features to keep you moving quickly every step of the way.

• **All popular sources and formats, including HD** – Capture video from most consumer cameras, including the newest HDV camcorders.

• **Professional TV-style effects** – Use powerful real-time, multi-track editing to create effects you see on TV every day, such as Chroma Key (green screen) and Picture-in-Picture (PIP).

• **Keyframeable real-time effects with preview** – Choose from hundreds of real-time effects and transitions. Preview your movie immediately in full resolution right on your primary or even a secondary computer monitor. And if you ever outgrow the extraordinary effects selection included with Studio Plus, you can easily add to your collection—Pinnacle offers hundreds more at very affordable prices.

• **All the effects and transitions you need** – Bolster your creative options with scene transitions and special real-time effects. Studio Plus includes slow and fast motion video and audio playback, as well as the added control of true audio scrubbing for easy identification of key audio cues like specific musical beats and/or words.

• **Built-in DVD authoring** – Easily create DVDs with motion menus and custom navigation on the fly, for playback on consumer DVD players. Studio Plus' fully integrated CD and DVD authoring lets you preview your results with full DVD controls right from within the editing workspace, without having to switch applications.

• **Includes Pinnacle MediaManager** – Quickly and simply classify and organize all your video, photo, audio and music files for drag-and-drop editing within Studio Plus.

Your professional toolbox
Pinnacle Studio MediaSuite v.10 delivers a complete set of integrated, high-quality media enrichment and management tools, so you can take total control of all of your creative media options.

Includes Pinnacle Studio Plus version 10 and more:

• **Jasc® Paint Shop™ Photo Album™** – For detailed photo and image enhancement. Organize, enhance, fix, share, and protect your photos with this easy-to-use tool.

• **Steinberg® WaveLab® Lite** – For comprehensive audio editing. Import WMA and MP3 files, record audio or rip music from CD. Trim and edit your audio files before integrating them into your movie.

• **Pinnacle InstantDVD Recorder** – For direct video burning. Transfer your video straight from a tape to a DVD, saving both time and space on your hard drive.

• **Pinnacle MediaManager** – For quickly and intuitively managing all your media files. Manage and organize all the media files on your PC. The streamlined interface makes it easy.

• **Pinnacle Instant Burning Applications** – For fast, easy CD and DVD burning, duplication and backup.

• **InstantCopy** - Burn perfect copies of your home movies or data at unbeatable speeds to DVD or CD.

• **InstantDisc** - Quickly and easily burn your music CDs, videos, photos and personal data.

• **InstantWrite** - Drag-and-drop your videos, photos and data to DVD or CD, just like a hard drive on your computer.

• **InstantBackup** - Protect your personal data by making safe backups of your files to hard drive or DVD/CD disc.

• **Additional high-quality codec support to deliver the best end-user experience**
  - DivX®, MPEG-4 and Dolby® Digital 5.1 channel audio
